

HOSE REELS

PREMIUM WASHDOWN TECHNOLOGY

Self-retracting reels improve hygiene, enhance employee safety and prolong hose life. Can be wall or ceiling mounted, and an optional pivoting bracket lets the reel follow the operators movements. Pivot also allows the reel to be folded back to the wall when not on use.

Hoses are food and dairy quality, made from white EPDM with cord ply reinforcement.

✓ 1/2" & 3/4" STANDARD SELF-RETRACTING HOSE REEL

- 20m of 1/2" bore hose or 15m of 3/4" bore hose.
- Floor, wall or ceiling mounted.
- Resin covered aluminium finish.
- Complete with pivoting bracket.
- Max 11.5 bar pressure

Dynafluid 2000 Steam and Water Mixing Valve and rubber covered, bronze bodied watergun shown in picture - see relevant datasheets for more details.

◀ 3/4" STAINLESS STEEL SELF-RETRACTING HOSE REEL

- 15m of 3/4" bore hose.
- Floor, wall or ceiling mounted.
- Stainless steel design.
- Max 11.5 bar pressure

Dynafluid 2000 stainless steel Steam and Water Mixing Valve and rubber covered, stainless steel bodied watergun shown in picture - see relevant datasheets for more details.

EXTRAS

◀ SWIVEL COUPLING

- Prevents kinking of hose by giving free rotation.
- ½" x ½" hose or ½" x ¾" hose.
- Natural bronze, chrome plated or stainless steel.
- 10 bar pressure.
- Male x Female or Male x Tail connections.

➤ WATERGUN LANCE

- Moveable grip - insulated.
- Nozzle gives concentrated jet.
- Alternative nozzle designs available.
- Trigger operated, automatic shutoff.
- Bronze or stainless steel gun, stainless steel lance.

◀ HOSERACK

- Solid stainless steel rack.

➤ HOSE

- 20m of ½" bore hose or 15m of ¾" bore hose.
- Rated to 200psi (12bar) at 100°C.
- White EPDM with cord ply reinforcement.

Whatever your hot water requirements, we've the innovative answer. Steam and water mixers plus a full washdown range including waterguns and lances, self-retracting hoses, hot-and-cold water mixing valves and couplings. There are stainless steel options for the ultimate in hygiene. Everything for both high and low pressure applications.

The core of our range is the Dynafluid 2000 steam and water mixing valve. This product has built a solid international reputation for leadership over a 40-year history and a programme of continued improvement will ensure that this leadership is maintained.

From a single component to a full washdown system - talk to Dynafluid.
